Crews were off for 2 weeks over Christmas time. The site focused on keeping things neat and organized for their January 6 return.

Beams and ceiling boards were sanded and prepped for clear stain.

Half of the ceiling boards / beams have been stained / clear coated

		More pictures of the finished ceiling. Some of the HVAC rough is also shown.
		Framing of the S Entrance has started. The supporting structure will be in place until concrete pile caps can be poured and permanent steel supports installed.
		Rough-In work continues of mechanical, electrical, controls and plumbing. Organization on site is important with multiple trades on site.
